TONG'S NEW SEEDLING CHRYSANTHEMUMS for 1893

Mrs. C. H. Strong—Color a delicate rosy pink, silvery reflex; full incurved flower, the petals twisting to form a perfect ball, with the point of each petal protruding evenly over the entire surface, giving the flower a very unique appearance; an ideal florists flower. Received first-class certificate at Erie, Nov. 1882.

Daybreak—Color beautiful soft pure rose tipped with a very bright golden yellow both on front and reverse of petals; very distinct; large broad petals of good substance, incurved and reflexed; good for all purposes.

William Brewster—Color light crimson, reverse of petals chrome yellow with bright golden tips; each petal stands erect, tubular guard petals; large full flower. shows no center; distinct in color from any know variety; good dwarf habit.

Pink Coral—Beautiful coral pink, reverse of petals silvery pink; broad petals of good substance, beautifully incurved, foliage good; a grand florists' variety of good habit; has won first premium for basket of Chrysanthemums wherever shown.

Dr. B. D. Schlaudecker—Bright golden yellow lightly streaked with red; full incurved flower forming a perfect ball; strong robust habit, flowers borne on stiff stems; after the style of "Anthony Wayne-' but much better and more distinct. First-class certificate at Erie.

Cascade--Lower petals crimson gradua'ly shading to a bright Indian red, the upper petals crowning to a brilliant golden yellow; lower petals drooping, center petals slightly incurving; an enormous high built flower often measuring eight inches in depth by as many a cross; long stiff stems covered with foliage to the base of the flower Never exhibited.

Emma Laura T.--Light canary yellow; medium sized full incurved, flowers very freely produced on long stiff stems, foliage clear to the flower; an inproved variety of the "Ben d'Or" type; grand for cut flowers.

Lizzie Tong—A beautiful pearly white flower of immense size and good substance; the florets, which are spoon shaped, curl gracefully at the tips, reminding one of the snowy frills worn in the times of our great grandmothers; a great grower with a wonderful strong robust constitution; late, flowering end of November; a a grand variety for all purposes.

Charlotte Russe—Base of petals a soft delicate cream, the tips of the petals, which curl up-wards, a bright golden yellow, the colors beautifully blended, shape of flower somewhat similar to "Excellent" strong grower.

Tong Junior—One of the novelties of the season; very large double incurved flower of fine globular form, perfect in every way; color carmine shaded amaranth, reverse of petals silvery rose; strong erect grower, fine foliage and constitution of the best; a fine exhibition plant.

Rayon d'Or—The most distinct variety in cultivation both in the form and color of the flower, which is a bright bronze yellow lightly mixed with rose and red; each petal droops gracefully and then curls upwards at the tip of each petal; full to the center, never showing an eye; habit the very best.

War Paint—An immense flower of the "Cullingfordii" type with flowers twice the size of that variety, borne on long stiff stems, clothed with foliage; color distinct, a brilliant Indian red of the shade used by the Indians for war paint, reverse of petals old gold; strong robust constitution.
